

SALEM BOY KILLED IN AUTO'S WILD LEAP

Police Raids Uncover Alleged Dope Ring In Salem PAUL PHILLIPS

MAIN ST. PLACES SEARCHED, DOZEN PERSONS NABBED

Other Arrests Expected
Later In Day, Some
On Suspicion.

DOPE PURCHASERS OBTAIN WARRANTS

Disclosures May Prove To
Be Sensational; Eleven
Officers Assist.

Uncovering what may prove to be
the biggest dope ring that ever
worked in this county, city police
state police and special officers un-
der the direction of Chief of Police
T. W. Thompson, raided four
Main st. places starting at 1:45 p. m.
Monday in a search for dope alleged
to be sold or kept in the places.
They arrested a dozen persons,
some on suspicion, others on affidavits
charging dope peddling.
Although their names could not all
be learned as this edition went to
press because the raids and searches
are still in progress these persons
are known to be under arrest:
Under Arrest
George Founts, proprietor of the
Crystal restaurant, corner Main and
Chestnut sts., jailed for peddling
dope.
Alex Foleas, dishwasher, Crystal,
suspicion.
Mrs. M. Yates, dishwasher, Crystal,
suspicion.
Gust Stamas, proprietor of the Salem
Shoe Repair, Main st., suspicion.
G. Bruno, roomer, suspicion, ar-
rested in his room, at 103 1/2 Main st.
About eight other persons were to
be jailed on sworn affidavits or for
suspicion later in the day.
Chief Thompson organized the
raids after certain persons swore to
affidavits that dope was sold to them,
and naming the persons who sold
the dope. The disclosures based
on the information and warrants may
prove sensational, and may reveal
the fact that "top hoppers" existed
all along Main st.
These officers participated in the
raids going in four parties, each un-
der a lieutenant:
Chief Thompson, Safer Zimmer-
man, Policemen Gray, Willard,
Kirkbride, Firemen Yarwood, Groner,
Lewis, McVaine, Deputy State Pro-
secution Commissioner Frank Hannay
and Captain Jones.
The men first went to the Crystal
restaurant, then the McAllister
rooming place, the shoe repair shop,
and then to the Ohio restaurant.
Two men are known to have been
arrested at the Ohio. This last place
officers aver, is said to be the home
of the ringleaders of the gang.

ENDS HIS LIFE BY GAS ROUTE

Girl Finds Body Of S. E. Nold, 76, In His Room
In Alliance; Former Leetonia Man
Left Note To Sons.

S. E. Nold, 76, widely known in Sa-
lem and Leetonia, committed suicide
by inhaling gas in his apartment in
Alliance.
His body was found at 2 p. m. Sun-
day by Laura Sutton, 15 who lives in
adjoining rooms in the apartment
house. He had been dead 36 hours
it is believed.
Nold was last seen by the Sutton
girl about 11 p. m. Friday. On Sun-
day afternoon she went to his room
to see him and as she opened the
door she detected gas fumes strong-
ly and then saw Nold's body stretch-
ed across his bed.
A coat covered the dead man's
face and a gas tube had been placed
to his nose.
A note left near the bed bore these
names: R. H. and M. G. Nold,
3308 Ellsworth ave., Berwyn, Ill.;
Miss Sara Shontz, Leetonia. It was
signed 2 a. m., which is believed to
have been the hour Saturday morn-
ing when he ended his life.
Solomon Nold was born near Lee-
tonia but had spent several years in
Alliance, where he was employed at
the Morgan Engineering Co's plant.
For the last year he had been a sales-
man for a furnace company in Alli-
ance. Business had been poor re-
cently and friends had noticed that
he was discouraged and seemed to
have lost interest in life.
Mr. Nold's wife as been dead
several years. He is survived by two
sons, Ralph and Morris of near Chi-
cago, and a daughter in Muncie, Ind.
He also leaves three sisters, Mrs. E.
E. Mezan and Mrs. Emma Sontz
both of Leetonia, and Mrs. Elizabeth
Phillips of East Chicago.
Funeral arrangements have not
been completed, pending the arrival
of his sons.

MERCURY DROPS FAR BELOW ZERO, 5 PEOPLE PERISH

Salem Experiences Coldest
Night Of Winter; Zero
At Noon Monday.

SUB-ZERO WEATHER TO REMAIN TONIGHT

Suffering And Death Move
With Cold Wave Thru-
out Middle West.

With the mercury hovering be-
tween four and 15 below Sunday
night, Salemites attempted to sleep
through the coldest night of the win-
ter.
Sunday afternoon thermometers
registered 19 to 20 above but the mer-
cury started to fall about 7 p. m. At
midnight a recording thermometer on
Vine st. showed 12 below, and later
in the night 16 below was reg-
istered. At 7 a. m. Monday different
places over the city reported tempera-
tures varying from 8 to 14 below.
At noon it was even zero.
The sudden cold snap, more severe
than the first one several weeks ago,
hit the city unexpectedly but aside
from low gas pressure, not much
discomfort was reported.
Service Director F. A. Rinehart
stated his department had few calls
from residents whose motor and
water pipes had frozen. Some places
in the air line to the wells froze
slightly, but did not impair the flow
of water into the city.
The intense cold caused dozens of
auto radiators to freeze up and gar-
age men were busy all day Sunday
and Monday toying in cars and thaw-
ing them out.
Three Die In Cleveland
Cleveland, Jan. 21.—With a tem-
perature of eight below zero official-
ly reported here early today three
deaths due to the sudden drop in tem-
perature were reported.
John and Frank Nemsek, aged 15
and 17 respectively, were victims of
carbon-monoxide poisoning while
Armstrong Smith, 52, dropped dead as
he was entering the door of a steel
plant, where he was employed. Doc-
tors said his death was due to over-
exertion due to cold weather.
John Stryanko, seven, missing from
home for a week, was found today
on a street, with both feet frozen.
A Willoughby interurban car was
set afire and panic broke out among
the passengers when a high tension
wire snapped. The vehicle was
burned before the flames were ex-
tinguished.
Street and interurban cars were
running far behind schedule.
Unlike the previous cold wave,
a prediction that the cold wave
would last at least a week was made
by Forecaster Emery of the United
States weather bureau today.

Hull Planning Democratic Convention.

Cordell Hull, chairman of the Demo-
cratic National committee, who will
be in charge of the Democratic Na-
tional convention in New York city in
June, is actively engaged in planning
the details of the big meeting.

DIES, WHINNERY BRUISED BADLY

Auto Plunges Into Field Early Sunday As
Young Men Speed North On Albany Rd.;
Phillips Dies In Few Minutes.

Paul Phillips, 23, son of Mrs. Lon-
anna Phillips, 52 East High st., is
dead and Ross Whinnery is in the
City hospital with his body
covered with bruises and cuts, and
suffering from what are believed to
be slight internal injuries, as the re-
sult of an auto accident about 1:30
a. m. Sunday on the Albany rd.
Phillips died at Salem City hospital
after he had been brought there by
Alex H. Chalfant of the Chalfant gar-
age, and Homer A. Peters, member
of Chalfant's wrecking crew, when
the two men answered a hurry call
and made a heroic rescue.
Phillips and Whinnery were to-
gether in a Salem store about mid-
night and decided to take a ride in
Whinnery's car, a small one-seated
Studebaker roadster. Whinnery got
in at the wheel and the two men
drove around town for an hour.
Whinnery then drove north on Gar-
field ave. and kept on going at a fast
speed until the machine neared Pine
Hollow. There is a road that turns
abruptly from the Albany road at the
foot of the hill near the woods. It
is thought that Whinnery became
confused and made a slight turn of
the steering wheel.
Leaps Into Air
The machine swerved in its fast
descent of the hill, and Whinnery
pulled so hard on the steering wheel
that he broke it in two. The car
plunged off the road just beyond the
road that leads down to a coal mine,
cut diagonally northeast across the
ditch and across the field.
So fast was the car traveling that
it ran approximately 50 feet across
the field until it struck a small
stream that flows under a culvert on
the Albany rd. As the car struck
the water it leaped in the air for a
distance of about 20 feet, turning
over in the air, and coming down
with its front facing Salem.
There were no tracks of the car
for 20 feet after it hit the stream,
proving Chalfant says that it leaped
through the air.
Phillips was knocked against the
top, an examination of the wrecked
car Sunday revealed. The left side
of his jaw struck an abutting part of
the collapsible top and the terrific
impact broke the jaw in half. Phil-
lips sustaining a compound fracture
of the skull. His teeth were knocked
down his throat, his face was hor-
ribly cut and blood spouted out of
his mouth and throat.
Whinnery is dazed.
Whinnery was knocked from the
car, and the force of the car as it
struck the ground temporarily re-
served him of his senses. He got up,
stumbled out onto the road, and a
motorist, driving to Salem, noticed
Whinnery stopped and asked him
what was wrong.
The injured man replied, "My car
is wrecked, take me to Chalfant's."
The motorist, whose name could
not be learned, helped Whinnery in
the car and brought him in to the
Chalfant garage. A call was sent
to Mr. Chalfant by the night crew
on duty.
Calling a taxi Chalfant sent Whin-
nery to the hospital, and called the
hospital, asking attaches to meet the
taxi at the curb.
He then ordered the wrecking car
to follow while he and Peters went
on ahead in Chalfant's touring car to
see what was supposed to be merely
a wreck.
On their way out someone yelled
to Chalfant that Phillips was with
Whinnery so the two rescuers flash-
ed their lights along the road, and
located the wreck about 15 feet from
the road.
Search For Phillips
Peters then to the wreck, not see-
ing Phillips, who was lying 12 feet
to the left of the car, until Chalfant
flushed the light on the dying young
man. Peters called "Pippy" Phil-
lips' familiar nickname—several
times but received no answer. He
leaned down and felt Phillips' heart
beating faintly.
Chalfant then picked Phillips up,
placed him in the car and raced to
the City hospital in a vain but heroic
attempt to save the life of the fatal-
ly injured man.
Reaching the hospital an examina-
tion was made. Phillips was breath-
ing faintly but soon after a physician
arrived he died.
Whinnery wanted to go home, de-
claring that he was alright, and rode
downtown with Chalfant. Later in
the night, however, Whinnery went
back to the hospital when pain in-
creased.
He will get along fine, hospital at-
taches say, but will have to rest
several days to get over the shock
and recover from bruises that cover his
body and face, with cuts on his face
and arms.
The car was almost a complete
wreck. When brought into the Chal-
fant garage an examination showed
that three wheels were torn off, the
top almost torn off, and the body of
the car smashed.
Paul Phillips was born in Salem, the
son of Mr. and Mrs. Orrington Phil-
lips his father dying when Paul was
six months of age.
Paul was educated in the Salem pub-
lic schools, having been a student at
Fourth st. and McKinley ave. schools,
and went one year in Salem High
school.
He had enjoyed a wide acquaintance
and was very popular among Salem
young men. For some time he had
worked at the Y. & O. power station
south of the city.
Surviving are his mother, Mrs. Lon-
anna Phillips, whom he has helped
support for many years; five aunts,
Miss Mary and Miss Ella Knowles, Sa-
lem; Mrs. P. Calloway and Mrs. Mattie
Pittman, Delaware; and Mrs. Nettie
Read, Richmond, Va.; five uncles,
Homer Knowles, Columbus, and Al-
bert, George, William and Harvey
Phillips, all of Delaware state.
Funeral service will be at 2 p. m.
Tuesday at the home, 59 East High
st., in charge of Rev. H. L. Miller of
the Christian church, Barla, will be
in Grandview.

TAKES ANTI-DRINK PLEDGE, SENTENCE TO PEN SUSPENDED

Other Criminal Cases Are
Disposed Of In Court
Monday Morning.

Lisbon, Jan. 21.—Judge J. G.
Moore in criminal court Monday
morning gave Richard Osborne, 66, a
potter, employed in East Liverpool, a
suspended sentence of from one to 15
years in the Ohio penitentiary for
breaking and entering the Boring
meat market in East Liverpool.
Osborne was found in the meat
market one Sunday evening, drunk,
and with a basket of merchandise
ready to take out. The plea of mercy
was made by the owner of the meat
market because of the advanced age
of the prisoner and because of his
promise to abstain from intoxicating
liquors.
Angelo Citino, Franklin Square,
changed his plea of not guilty to that
of guilty and was fined \$100 and
costs, the minimum allowed by law
for selling cigars without securing a
state license. He paid his fine and
was released.
Grove Huddleston, who acted the
part of a peacemaker during a neigh-
borhood quarrel in East Liverpool,
and the latter fell to the ground and
fractured his skull. The victim was
taken to the East Liverpool hospital
and while a patient there roamed from
the institution one night clad only in
his night garments. He was found
about two hours later walking about
in that condition and was returned to
the hospital. He died a few days later
and Coroner Van Fossan pronounced
that death was caused from exposure
and exertion due to his weakened con-
dition.
All the criminal cases assigned for
hearing Monday were disposed of
within an hour.
The case of the state of Ohio vs.
John Dido of Salem will come up for
trial Tuesday. He is charged with
possessing materials for manufactur-
ing liquor.

"BLUE LAW" LID CLAMPED DOWN. 6 ARE ARRESTED

Youngstown, Jan. 21.—Enforce-
ment of Sunday "blue laws" as or-
dered by Mayor Charles Schiele, be-
came a reality here Sunday when six
arrests were made for violations.
Sidney Friedman, manager of the
Friedman Transfer Co., was arrested
for permitting the use of one of his
trucks to haul a load of household
goods. Fred Jones, a driver of the
truck, and Nick Jim, a helper, were
charged with performing manual la-
bor on the Sabbath.
William G. Hagerman and son,
Frank, were taken into custody for
renovating the interior of their store
by adding a coat of paint to the
walls. Joseph Tager, Photographer is
alleged to have posed a subject for a
photograph.
All were released on \$5 cash bond
each.

KIWANIS PREPARES FOR MUSICAL SHOW HERE TWO NIGHTS

Home Talent Production On
Feb. 5 And 6 To Benefit
Tourist Camp.

The Salem Kiwanis club will stage
a great home talent production of a
musical comedy in the High school
auditorium Tuesday and Wednesday
evenings, Feb. 5 and 6, for the pur-
pose of raising funds to complete the
Salem tourist camp.
"Windmills of Holland" is one of
the outstanding successes in that it
is a musical show with a real plot
and story that is both interest-
ing and comical. There are 20
numbers of the popular type that linger
in the hearts of those who hear the
sweet melodies.
The show will be directed by
George R. Eckert of Indianapolis,
who arrived this morning to take
charge of the rehearsals.
There will be a large chorus and
eight principal parts and the special
scenery is a wonderful reproduction
of Rotterdam's famous painting "The
Old Mill." The costumes are pic-
ture-like and there will be a colorful
presentation of the local atmosphere
of the quaint old land of dykes and
dories, tulips and tulips (windmills
and wooden shoes).
There will be a special meeting of
the Kiwanis club membership this
evening in the Elks home for the
purpose of making final arrange-
ments for the two performance.

Damascus Telephone Officers Are Named

At the annual meeting of the Da-
mascus Telephone Co., held at Da-
mascus Saturday the following offi-
cers were elected for the current
year: President, A. R. Cobbs; vice
president, O. V. Dalko; secretary,
W. R. Parce; treasurer, Elmer T.
Walker. The officers, together with
L. F. Pearce compose the board of
directors.
The company has between 500 and
600 subscribers, according to the an-
nual reports and has a working
agreement with other companies,
whereby connections are possible
throughout the country.

Attorneys To Urge Speedier Justice

Columbus, Jan. 21.—Speedier jus-
tice will be urged by members of the
Ohio State Bar association when they
meet here Friday for a two-day annual
winter session. A number of speak-
ers will be heard, among them Wm.
M. Hart, Alliance, president of the
association.

Sumatra Rubber Plant Producing Many Specialties; Future Bright

By H. P. BRAMAN
Very few persons are acquainted
with one of Salem's newest indus-
tries. It is an industry, the nature
of which, however, almost every per-
son in the country is familiar with,
namely the rubber industry.
This particular home plant manu-
facturers rubber sundries, specialties
and office supplies. It is the Sumatra
Rubber Co., and how it got its name,
is also a story within a story.
Located in the old W. J. Clark Co.
property on Depot st., fronting now
on Filbert st., the plant covers three
buildings or parts of buildings, used
for manufacturing the different ar-
ticles from raw rubber to the finish-
ed product.
The writer was shown the different
products from the beginning, which
is the raw rubber in sheets, to the
end when the outer edges and scraps
are trimmed from the syringes, hot
water bottles, desk pads, etc.
The company receives the raw
rubber in large sheets from the
Dutch East Indies and especially the
island of Sumatra, hence the name.
It is all cleaned on the plantations,
in direct contrast to the old methods
of wild rubber growth, being cured
now, washed, and cleaned before be-
ing placed on board ship for the Sa-
lem plant.
When the rubber is received it is
mixed in a big special mixing ma-
chine with different chemicals, colors
and either softeners or hardeners, de-
pending on the product, all ground
together after being carefully weigh-
ed to get the correct proportions, the
heat of the machine pressing it all
together.
Now to get to the different prod-
ucts that are manufactured in this
new city industry, because the other
rubber plant makes only tires and
tubes.
Everyone uses at times a hot water
bottle, a fountain syringe, a complex-
ion brush, a screw driver, bunion
(Continued on page 12)

7 FIREMEN PERISH IN PITTSBURG OIL TANK FIRE MONDAY

Ladder Collapses, Plunging
Firemen Into Tank Of
Boiling Oil.

FIRE STILL BEYOND FIREMEN'S CONTROL

Pall Of Dense Smoke Hangs
Over City; Other Tanks
Are Doomed.

Pittsburg, Jan. 21.—Seven firemen
are known to have perished today
when a ladder on which they were
fighting a terrific blaze, raging in
the plant of the Standard Oil com-
pany here collapsed, plunging them
into a tank of boiling oil.
The blaze, starting with the ex-
plosion in a 10,000 barrel tank of oil,
transformed the plant yard into a
sea of fire, in which ten other tanks,
of the same capacity are standing.
The entire district within ten
blocks of the blaze has been segre-
gated and persons living in the vic-
inity have fled. The blaze rapidly
communicating to buildings in the
plant yard.
The badly charred bodies of seven
of the victims have been recovered
and identified. The names are:
Others May Die
Captain Rudolph Blise, Capt. Fra-
zier, Capt. Edward Jones, Hoseman
Patrick Abbott, Hoseman Markham,
Fireman Robert Smith, Fireman Sam-
uel Bollinger. Three others are
believed to have been fatally injured.
They are Buck Lowrie, Jess Mercer,
and A. Stewart, all firemen.
At 10 o'clock the fire was still rag-
ing beyond control of all available
firemen, summoned from every en-
ginehouse in the city.
A pall of dense black smoke, pierc-
ed intermittently by flashes of fire,
hung low over the city, attracting
thousands of persons to the hills on
the opposite side of the Allegheny
river overlooking the scene.
At 10:15, as the fire, fanned by a
brisk wind, continued to gain rapid
headway and it seemed certain the
other tanks were doomed, the 14th
field artillery was ordered out to aid
firemen in battling the flames. The
heat of the blaze in the zero weather
brought numerous casualties in the
ranks of the firemen.
7 Below At Lisbon
The coldest registered in Lisbon
Monday morning was 7 below at 1 a.
m. At 7 this morning the mercury in
many places about the county seat
registered zero.

Mrs. Esther Lodge, 83, Is Dead In Leetonia

Mrs. Esther Lodge, 83, died at 1 p.
m. Sunday at the home of Mrs. Harry
Wolfgang, Leetonia. Old age is given
as the cause of her death. Most of her
life she lived south of Leetonia but
lately she had been making her home
with Mrs. Wolfgang.
She is survived by one daughter,
Mrs. Albert Baker, and two sons,
Harry and Lyle Lodge, all residing
south of Leetonia.
The funeral service will be held at
1 p. m. Wednesday at the Wolfgang
home in Leetonia.

GASOLINE PRICES RAISED IN SALEM

Independents Join Standard
In Boosting Price To
20 1/2 Cents.

Gasoline at all Salem filling sta-
tions went up 1 1/2 cents Monday
morning.
Following the raise of the Stand-
ard Oil Co., prices in Cleveland Sun-
day the Standard office here an-
nounced a raise from its former
price of 19 cents to 20 1/2.
This is the highest price since Au-
gust although some refiners have
raised their prices once before this
month.
The Vahey, Freedom and Arrow
companies, independent Salem com-
panies, followed the Standard in the
raise and all filling stations have
the same price, intermediate
and high test prices also are raised.

AMERICAN CRUISER GUARDING TAMPICO

1,500 Mexican Troops Pass
Through New Mexico
Despite Protests,

Washington, Jan. 21.—The fast
cruiser Richmond has arrived at
Tampico, the great oil port of Mex-
ico, to protect American interest and
to keep the lanes of commerce open,
despite the attempted blockade of the
port by Mexican revolutionists, ac-
cording to a radio dispatch to the
navy department today.
Denning, N. M., Jan. 21.—More than
1500 Mayo Indians are believed to
have passed through the southern part
of New Mexico early today, according
to information from that section.
Other vigorous protests from all
parts of the state, Gov. James F.
Hinkle, of New Mexico, gave permis-
sion yesterday for the transporting
of federal troops to the Mexican gov-
ernment from Senora to El Paso,
Texas, where they will re-enter Mex-
ico.

Canton Man Drinks Laudanum, Is Dead

Youngstown, Jan. 21.—John Gar-
nons, 45, of Canton, died at Youngs-
town hospital yesterday from effects
of drinking a portion of laudanum.
His act is believed to have been due
to despondency over ill health and
domestic difficulties.

ROBERT AULD, 84, DIES SUNDAY NOON

Aged Coal Mine Operator
Had Made Two Trips
Around World.

Robert Auld, 84, widely known re-
tired coal mine operator, died at 1
noon Sunday at the home of his
daughter, Mrs. Allen Weaver, Can-
field rd. after having been in failing
health for the last two years.
Mr. Auld was born Sept. 15, 1839,
in Scotland, a son of Robert and Ann
Auld. He was united in marriage
with Miss Janet Thompson and
about 54 years ago they came to
America, locating in Shafter, Pa.
About a year later they came to Sa-
lem and later lived in Albany. Mrs.
Auld died 15 years ago.
For several years Mr. Auld oper-
ated coal mines near Albany, but had
retired some ten years ago. He trav-
eled extensively in his later years,
having made two trips around the
world.
For 52 years Mr. Auld had been a
member of Amity lodge No. 124, I.
O. O. F., and since he was 18 years
old he was a member of the Methu-
en church.
Surviving are 12 children: Mrs. John
Shepard, Canfield; Mrs. Janet
Leipper, Schring; Mrs. Frank God-
dard, Long Beach Calif.; Mrs. Emory
Matthews of Ellsworth; and Robert,
Jr., and John Auld, Mrs. Anna Donald
son, Mrs. Fred Leipper, Mrs. Allen
Weaver, Mrs. H. B. Haidley, Mrs.
Vary Harshman and Mrs. Harry
Stratton of Salem.
The funeral will be at 2 p. m.
Tuesday at the home of his son, John
Auld, 109 East Seventh st., in charge
of Dr. P. H. Gordon. Interment in
Hope cemetery. Please omit flow-
ers.

Ohio Youth Swallows Poison, Dies Later

Columbus, Jan. 21.—Hildreth
Kamps, 23, swallowed poison at his
home here last night and died an hour
later in a hospital. Motive for his
suicide could not be determined.

Class Matter

Mexican Arms Sale

A NATION-WIDE controversy has followed the sale of government munitions to the Obregon government in Mexico while the state department has assumed an attitude of opposition to allowing private interests to dispose of war material to representatives of the de la Herreria "rebels."

"There is no need to exercise discretion in such matters," the Boston Transcript holds, "and that discretion must be exercised by ourselves and not at the dictation of anyone else. Too often there have been suspicions and indeed charges, founded or unfounded, that insurrections in Mexico were fomented on this side of the border. It will be a wholesome contrast to have our government extend vital aid to the best government Mexico has had for many years against an insurrection that seems to be about the most causeless one that has ever vexed that much-suffering country."

There is also, the Chicago Daily News points out, "nothing unusual in the decision of the United States government to grant the application of the Obregon government. Impartial observers are of the opinion that the Mexican president and his associates in the government truly represent the sentiments of the great majority of the people. The sooner the insurrection is ended and all groups acquiesce in the rational and legal method of settling legislative and administrative issues the better for Mexico and Latin America generally."

As the Buffalo News sees it, "there is no telling what we are letting ourselves in for through this transaction with Obregon; it is a commitment that has a high potential for trouble." The Columbus Dispatch claims the very end at which Harding was aiming will in this case be promoted by granting the request of the Mexican government, not by refusing it.

Equal Before The Law
WOMEN have as good a right to shoot men as men have. But they have no better right. Judge Humphreys, the Atlanta jurist, is eminently correct in his view of the matter. Both sexes stand in exactly similar responsibility before the law. Women have the same right in the premises as men, which is exactly no right at all to commit murder. The contemplation of our institutions is that punishment shall be meted out without discrimination as to sex.

That women should enjoy no immunity in the commission of crime we believe, is the general view of women themselves. As an evidence of this fact, it is not necessary to note the aversion of the "sob sisters" in having other women serve on juries to try them. It is also worthy of note that women jurors are not greatly impressed with emotional demonstrations by those of their sex who are charged with murder. Let the law take its course, is a safe maxim for the upright citizen.

20 YEARS AGO

(Issue of Jan. 21, 1904)

McKinley's birthday, Jan. 29, will be observed as a holiday by the Niles schools, as has been the custom the last two years.

John H. Haddon has sold his farm of 100 acres to Theodore Campbell. Mr. Haddon has owned the farm for 19 years.

Richard Stiffler, driver for Henry E. Stiffler, had an exciting runaway Wednesday when his horse was frightened by some children throwing snowballs. Although the outfit was upset the horse and driver escaped injury.

The local board of public safety has issued its book of new rules and regulations which will hereafter govern the Salem police department. These rules will be put in force Feb. 1.

Smallpox continues to prevail in Ohio, but has nowhere assumed very alarming proportions. The cases as yet have been mild.

Word has been received here of the marriage of Miss Ethel Whitacre and Roy Holloway, both formerly of the city at Davenport, Ia.

Spencer City Aerle, fraternal Order of Aerles, is arranging to celebrate its first anniversary Feb. 25.

About 60 neighbors and friends of

Mrs. W. F. Quass, Franklin ave. surprised her Wednesday evening to celebrate her birthday anniversary.

Miss Agnes Bell of New York city, who has been the guest of Mr. and Mrs. George H. Goe has gone to Pittsburg enroute to New York.

Dr. James Anderson was called to Columbiana early this morning in consultation.

Sanitary Police and Emergency districted the read-room of Thomas Grice, where there had been a case of scarlet fever.

LEARN HOW THE MOLE LIVES

Naturalists Obtain Several Nests of the Animal That Reveals His Habits.

The American Museum of Natural History offered a prize of \$25 for a nest which would show how the mole lives, and several were forthcoming. Dr. F. A. Lucas, director of the museum, said accurate information hitherto not available to scientists, had been obtained. "This is the first authentic information about a mole's nesting habits I know of," he said.

"And as far as I know the groups which we can make out of our specimens will be the first in any American museum. I had been unable to find any one who knew anything about the family life of a mole until I received the accurate information of the finders of the nests we now have."

Doctor Lucas plans to use the newspapers in further hunts for unusual specimens of animal life. He said that for three years he had been trying to get hold of a family of young raccoons under a month old. In spite of a reward of \$100 for such a family he has never been able to get one. He is also after a family of young wolves.

—Scientific American.

Wanted to Shine.

French menus and the high prices in New York restaurants stir the visitors' hatred. The specious covert charge is likewise detested. When the bill of fare is printed in French, as is the custom in the more exclusive cafes, out-of-town write me they consider it un-American.

However, in this connection I received a rather amusing request from a young man in Idaho. He was coming to New York to see a young lady who was in a finishing school. He enclosed \$5 in his letter and asked if I would procure one of the menus in French at a certain hotel, select dishes in order that would make a satisfying meal, mark them, and also explain what they were.

"My young lady friend has been running around with a New Yorker," he explained, "and I want to show her that I can order a meal in French, too."—O. O. McIntyre in the American Magazine.

The world's largest tannery is at Ridgeway, Pa.

Amateur Can Make Own Tube Socket

Drawings Show How Outfit Can Be Successfully Made at Home.

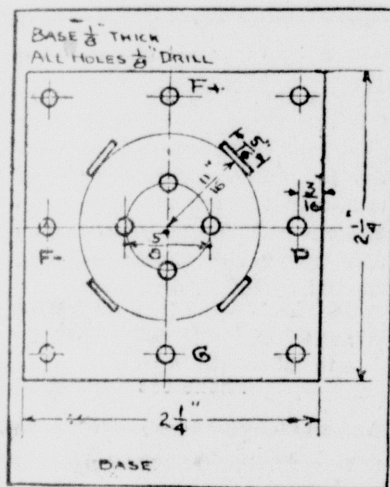

It happens frequently that defects in tube sockets drive many amateurs to making their own. Sometimes porcelain sockets crack and break, while bakelite, or hard rubber, softens and gets out of shape when subjected to the heat of C-W transmission. The drawings accompanying this article

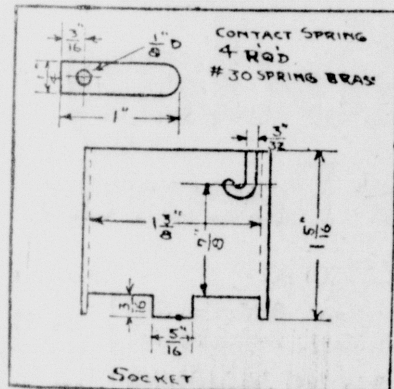

Assembly Drawing (Full Size) Emphasizing the Neatness and Compactness of This Socket.

show the detailed construction of a neat and compact tube socket. It has been made and operated successfully. The dimensions given provide sufficient clearance between the binding posts and the socket to prevent short circuits. Many amateurs may wish to enlarge the base so that there will be more room for making connections. This, of course, is permissible since it does not affect the important dimensions for fitting the tube base into the socket.

The cylindrical tubing that forms the upright of the complete socket may

be of brass, aluminum, or any other metal that may be available. It should be about one-sixteenth of an inch thick and 1 13/32 inside diameter. The contact fingers, of which four are required, must be of thin spring brass and cut accurately to dimensions. The base may be of hard wood, fiber, bakelite, hard rubber, or any other insulator. Make it about one-eighth inch thick. The position of

the slot in the tube must be so effected that when the bulb is in place the four little projecting lugs on the base of the bulb make contact with the proper contact-spring.

RADIO RHYMES

By Robert Stewart Sutcliffe.
NEWS FROM ALASKA—
"Morris wins best home-constructed set. Henry Pigg tells of operation. Sully claims he has heard Seattle, according to Henry Pigg."—Juneau (Alaska) Empire.

Alaska may be chilly, but only people silly fail to realize that section's much alive; and it has a place called Juneau where they take good care that you know they're busy as the bees around a hive.

Though some distance from the States the Empire there relates that radio has caught them in its net; in a lively youths' contest, to find out which was the best, a youngster built a dandy home-made set.

All thought that this was big and twas fixed with Henry Pigg to tell about its wondrous operations; up there young Pigg's the cheese in matters such as these, and he knows the way to get a lot of stations.

The natives there all boast of how Pigg gets the coast, and daily hears from Portland or Seattle; he's the big "ham" in the swim and the folks all root for him—the Pigg that makes their old loud-talkers rattle.

If the static is discussed, Henry Pigg grunts with disgust, he has no use for those who "hog" the air; all the folks applauded his feat, when he gives the town a treat, they think he'd take the prize most anywhere.

Latvia Is Not Lithuania

Latvia should not be confused with Lithuania, warns the Commercial Appeal. Since the establishment of the exchange of money orders between the United States and Latvia numerous applications for the issue of orders on Lithuania have been made, and in many cases accepted by postmasters who are misled by the fact that people sometimes designate Lithuania as Latvia, Litava, Lietava or Lietuva. While United States money orders are now paid in Latvia (also known as Letonia and Lettija), there is yet no money order convention with Lithuania.

Light-Giving Mineral

The people of Cornwall, in England, aver that at night there may be seen there a faintly shining mineral among the rocks rejected from the mines. That this is not pure imagination or their part has been proved by scientific investigation. A specimen of the mineral autunite, which is also found in Wales, was sent to a scientific body in London for examination of its apparently luminous properties. It was found that it closely resembled artificially prepared salts of uranium, and that its luminosity was due to its spontaneous radioactivity.

Cement for China and Glassware

A cement for mending broken china and glassware may be made as follows: Mix a cupful of milk with a cupful of vinegar, then separate the curd from the whey and mix the whey with the whites of five eggs, beating the whole thoroughly together. When it is well mixed sift in a little quicklime and stir until the mixture is of the consistency of thick paste. Cement made in this way dries quickly.

Too Much Uric Acid?

LET US SEND YOU THE WILLIAMS TREATMENT FREE 85 CENT BOTTLE (32 DOSES)

Just because you start the day "too tired to get up," arms and legs stiff, muscles sore; with burning, aching back and dull head—Worn OUT before the day begins—do not think you have to stay in such condition.

Rheumatism, kidney and bladder troubles, and all ailments caused by excessive acidity make one miserable. Be strong and well. Get rid of the "rheumatic" pains, stiff joints, sore muscles, "acid" stomach, kidney or bladder troubles so often caused by body-made acids.

If you have been ailing for a long time, taking all sorts of medicines without benefit, let The Williams Treatment prove to you what great relief it gives in the most stubborn cases. Since 1892 hundreds of thousands have used it.

If your sleep is broken by an irritated bladder that wakes you up every few hours, you will appreciate the rest and comfort you get from the free bottle (32 doses). To prove The Williams Treatment conquers kidney and bladder diseases, rheumatism and all other ailments when due to excessive uric acid, no matter how chronic or stubborn, we will give one 85c bottle (32 doses) free if you send this notice. Please send 10 cents to help pay postage, packing, etc., to The Dr. J. C. Williams Company, Dept. BA-2377, P. O. Building, East Hampton, Conn. Send at once and you will receive by parcel post a regular 85c bottle, without charge and without incurring any obligation. Only one bottle to the same address or family. Nothing sent C. O. D.

URGE OBSERVANCE OF THRIFT WEEK

Beginning Jan. 17, and continuing until Jan. 23, National Thrift week is being observed throughout the country according to Postmaster G. H. Vounts.

"Thrift may be considered one of the cardinal virtues and its importance cannot be over-emphasized. Thrift and saving practiced consistently will go far toward overcoming individual difficulties and many of our national problems," stated Postmaster Vounts.

"Celebrate National Thrift Week by laying the foundation for realizing your most cherished ambitions, whether it be acquiring a home, a business of your own, the education of your children, or any other equally worthy object. Join the ranks of the successful and be independent. You can do this by purchasing as many Treasury Savings Certificates as you can afford to pay for now; then plan to buy one or more every month at the postoffice."

Small aeroplanes, practically noiseless and capable of quickly changing their course in the air, have been developed in Europe for hunters to pursue birds.

SOCIETY

Windle-Stratton
Coming as a complete surprise to their many friends is the announcement of the marriage of Miss Ellen Windle, daughter of Mr. and Mrs. E. C. Windle, and Glenn Stratton, grandson of Mr. and Mrs. James M. Stratton, an event of Saturday morning at the home of Rev. P. H. Gordon, Franklin ave.

Mrs. Stratton is employed in the office of Deming company and her husband is employed by the same company. They spent Saturday and Sunday in Cleveland. The young people will make their home for the present with the bride's parents, on Cleveland ave.

Bridge Club Meets
Mrs. Carl Flickinger and Mrs. Helen Brumbaugh entertained the members of their bridge club and their husbands Saturday evening at the home of Mrs. Brumbaugh, North Lundy st. High score was shared by Mrs. Flickinger and Mr. Hickling.

Saturday Night Bridge
Associates of the Saturday Night Bridge club were guests of Mrs. Zora Trotter Saturday evening at her home, East High st. and devoted the hours to their favorite game. The prize winners were Mrs. William Brumbaugh and Mrs. Rollin Finley.

Miss Deming Hostess
Miss Helen Deming entertained Saturday afternoon at her home, East High st. Four tables were engaged at lunch. The prize winners were Mrs. Gordon Keyser and Mrs. Hazel Walton. Mrs. Bottomley of Alliance was an out-of-town guest.

Misses Hester Brown and Helen Reitzen spent week end in Youngstown with the former's aunt, Mrs. Wade Wilkins. Friday evening they attended the Paderewski recital.

Mrs. Stanton Heck, Mrs. Norman I. Reich and Mrs. James Atchison returned Saturday from a visit with Mrs. Frank Harroff, of Cleveland Heights, Ohio.

Mrs. and Mrs. D. J. McConnell and family of Sewickley spent Sunday with Mr. McConnell's parents, Mr. and Mrs. W. J. McConnell, McKinley ave.

Mrs. Orin McArthur and baby daughter, who have been at Central Clinic hospital, have returned to their home, 56 Rose st.

George Blackburn of the Ellsworth rd., who has been ill for some time, was reported Monday morning as being not quite so well.

Miss Edith Miller and William Naragon of Canton spent Sunday with Mr. and Mrs. E. F. Naragon, Woodland ave.

Mrs. H. W. Weisgerber and daughter Elsie, Youngstown, spent Saturday afternoon in Salem visiting with friends.

Mrs. Iva Beck Fenstermaker, who is at Rocky Glen sanatorium, McConeville, is reported to be improving.

Kay C. Miller of Columbiana, who was burned in an explosion several weeks ago, is able to be out.

Mrs. Elizabeth Yates spent Sunday with her brother, Dick Woodward and family of Youngstown.

Vernor Beck of the North High town rd. has accepted a position at the Hanna bakery, at Lisbon.

Miss Emily Quigley of Columbiana spent the week at the home of Miss Orin Montgomery, Ellsworth ave.

Miss Betty Vernon was a guest of Miss Frances Burnett, Lisbon, over the week-end.

Mrs. Kintner of Broadway has gone to Chicago to spend three weeks with relatives.

Miss Ethel Laughlin of Leetonia was the guest of Miss Elizabeth Shope Sunday.

Just Like Himself.
The Scotch are notoriously inclined to place at least a fair valuation on themselves and as exemplifying this quality an instructor in an eastern golf club tells this story:

"Angus McCree, a prosperous hatter, was called from his business in Glasgow to London to confer with a large exporting house. Upon his return his old mother was very anxious to learn about his trip and she was especially desirous of knowing exactly what an Englishman is like.

"Now Angus," said she, "tell me what an Englishman at home is like?" "I dinna see ony," replied Angus. "I only dealt wi' heads of departments an' ye ken they're a' Scotch."

Asked Too Much.
Jones was a lawyer who was not particularly bothered about the ethics of the profession. Most of the cases he brought into court were a bit shady. In fact his enemies did not hesitate to brand him "shyster" and the courts in which Jones practiced were thoroughly disgusted with his practices. In one case in which he was defending a man with a notorious criminal record he made an impassioned plea before the judge, concluding:

"And all I want for my client, your honor, is justice. Plain, simple justice!"

"In that case I am very sorry," the judge told him, "but the law limits me to a 15-year sentence!"

His Wife's Job.
A shiftless specimen of humanity came downtown one morning, and joining a group on a corner, announced that he was going to leave town—said he could not live in it any longer. Some one asked him what was the matter.

"Well," he said, "the town is all right; but it's the hardest place in the world for a woman to get work in."—Everybody's Magazine.

CONGRESS ENTERS EIGHTH WEEK IN GRAND JURY ROLE

Probes Are Directed Into Charges Of Varied Character.

LOBBY PROBE IS MOST EXTENSIVE

First Subject Is The Bok Peace Award; Other Propaganda Next.

Washington, Jan. 21.—Without a ring new law to its credit the 68th congress entered into its eighth week today in the role of a national grand jury.

Lacking only the power of indictment the senate launched the greatest member of concurrent investigations in its history. The inquiries held before special and standing committees, were directed into charges brought against public officials, alleged interference with the courts, alleged public opinion and into questions of national policy.

The house meanwhile concerned itself with settling a dispute between adherents and opponents of the Mellon tax reduction program and the soldier bonus, and with launching the great governmental appropriation bills on their journey through congress.

The most extensive senate inquiry was one launched into the existence of "lobbies" and the activity of paid propagandists, authorized under a resolution sponsored by Senator Reed Democrat of Missouri. The scope was unlimited and the first subject was the Bok peace award.

Once this subject is investigated, the inquiry will be directed into "propaganda" circulated in support of the Mellon tax program and against a soldiers' bonus.

Russian Recognition.
Affecting the nation's foreign policy a second inquiry was directed by the senate committee on foreign affairs into the question of American recognition of soviet Russia. Senator Wm. E. Borah, Republican of Idaho, chief exponent of Russian recognition, was in charge of this probe.

Adding small touch to the general inquiry, the senate also began an investigation into street car fares and the desirability of five-cent fares in the capital.

A fourth investigation and one of national importance was launched by the senate interstate commerce committee into railroad freight rates. The committee met under its new chairman, Senator Ellison D. Smith, of South Carolina, a Democrat.

The senate public lands committee took to its name its investigation into the leasing of naval oil reserves by former Secretary of the Interior Albert B. Fall, Senator Walsh, Democrat of Montana, who conducted a personal inquiry into a purported loan of \$100,000 made to Fall during the leasing transactions, reported his findings to the committee.

SPECIAL MEETING
OF AMITY LODGE 124, I. O. O. F. THIS EVENING AT 7:30 TO ARRANGE FOR FUNERAL OF BROTHER J. V. TURNEY, NOBLE GRAND.

Heroes Of Shenandoah Mishap

Captain Anton Heinen, German expert on dirigibles, and Lieutenant-Commander Maurice G. Pearce, U. S. N., were the outstanding heroes of the mishap to the dirigible Shenandoah. Commander Pearce was active commander of the ship when she broke loose from her mooring mast, but Captain Heinen, because of his greater knowledge, was tacitly given command. Within three minutes they had emptied the ballast, started her engines, and had her under control.

Says He Photographs Sounds.
A British inventor asserts that sounds make actual rings in the air when they occur, and that these atmospheric disturbances affect light coming through the air in such a way as to make them visible—at least to a super-sensitive lens.

According to Popular Science Monthly, this engineer has constructed a camera which actually records the waves of sound on its plate, and is using it in the study of the exhaust of gasoline engines, acting on the theory that the quality of the sound will tell exactly what, if anything, is wrong with the motor.

The camera, while apparently successful in photographing simple sounds, does not operate successfully when the sounds are of a complex nature, as, for instance, the notes of an orchestra.

HARE IS APPOINTED ANTI-SALOON HEAD

Columbus, Jan. 21.—T. M. Hare, Westerville, will be chosen today to succeed James A. White as superintendent of the Ohio Anti-Saloon league, it was announced this morning.

The board of trustees, composed of 50 members of various religious denominations over the state, will meet today and confirm Hare's appointment.

Hare began anti-saloon activities in Cleveland 24 years ago and since was district superintendent in several states. White's resignation becomes effective Friday.

SIX

SURGERY OF HEART ON TRIAL

German Expert Reports That the Cutting of the Nerve Fibers Ends Acute Pains.

Numerous statements relative to the relief by surgical operation of a heretofore almost intractable disease—angina pectoris—have appeared recently. Patients who suffered with the severe pains around the heart associated with this condition, are usually treated by the use of sedative drugs and physical methods; the relief is, however, temporary and recurrent attacks cause great distress and prevent those afflicted from following their usual occupations, says Hygea.

The new surgical methods are based on the suggestion of a German physician that the pains are conducted by nerve fibers which are accessible to the surgeon, and that relief might be secured by dividing these fibers. One German surgeon reported that he had performed the operation in six cases with excellent results. The cutting of the nerve caused a cessation of the pains, although it was not clear whether this result was due to a fall in the blood pressure or to a loss of sensibility in the parts.

Last February two American surgeons reported the results of the use of this surgical method in five cases. Death occurred in one case, and marked improvement resulted in the four remaining cases. Cases have continued to be reported both in the American and the foreign medical literature.

Some physicians have questioned the use of the method on the grounds that the pain was a warning signal which caused the patient to lead a conservative life. The field appears to be promising but is still strictly on trial.

DISLIKE THE SMALL PANES

Window Cleaners Would Rather Work Near Tops of the Loftiest Skyscrapers.

Whatever else may be said of Washington square it may be truthfully chronicled that it is the hangout of the window cleaners, that race of men who nonchalantly pose on window sills at dizzy heights while you hold your breath in incredulous horror.

Any window cleaner in the city will tell you that he would rather wash the panes of the highest floor of a skyscraper than go to the most modest of Washington square or Greenwich Village apartments to work, says the New York Sun and Globe.

"It's easy to understand," explained the head of one of the window-cleaning companies, "for most of the windows in the Washington square or Greenwich Village section are of the so-called French type, and are divided up into a number of small panes. Each of these naturally has to be cleaned individually and so the window takes that much longer to do. The more windows our men clean the higher their wages are, so naturally they want to get through as quickly as possible."

"Metal Mike" as Helmsman.

An American coasting vessel recently completed a voyage of 12,000 miles with a machine as helmsman. Except for taking the vessel in and out of port, the steering was done solely by this new device, and the vessel kept a straight course throughout the trip, at no time deviating from it by more than a sixth of a degree.

The new apparatus is known among "Metal Mike" has become so effective to the ship's compass in such a way that directly the vessel's nose begins to take it out of the true course, an electric contact is set in motion, which moves the helm and brings the ship back to the right position. Now that "Metal Mike," has become so effective in practice, it probably will be fitted to other boats.

Alaska to Make Paper.

Development of an important pulp and paper industry in southeastern Alaska is inevitable because of the water power, timber and transportation conditions there, in the opinion of Secretary of Agriculture Wallace. "The rate of development of the pulp and paper industry of the territory," says Mr. Wallace, "will be controlled by the economic factor of distance from present consumption centers and by the necessity, inherent in the industry itself, for large capital investments, rather than by physical disadvantages. The physical conditions in southeastern Alaska—presence of cheaply developed power, an enormous supply of inexpensive wood and the availability of water transportation—are the very factors which make inevitable the expansion of pulp and paper manufacturing in the territory."

Old Calendar Shelved.

The adoption of the Gregorian calendar by the Russian orthodox church through a recent proclamation by Archbishop Tikhon means that the entire Christian world will celebrate Christmas this year on the same date for the first time since 1581, the International Fixed Calendar league announced.

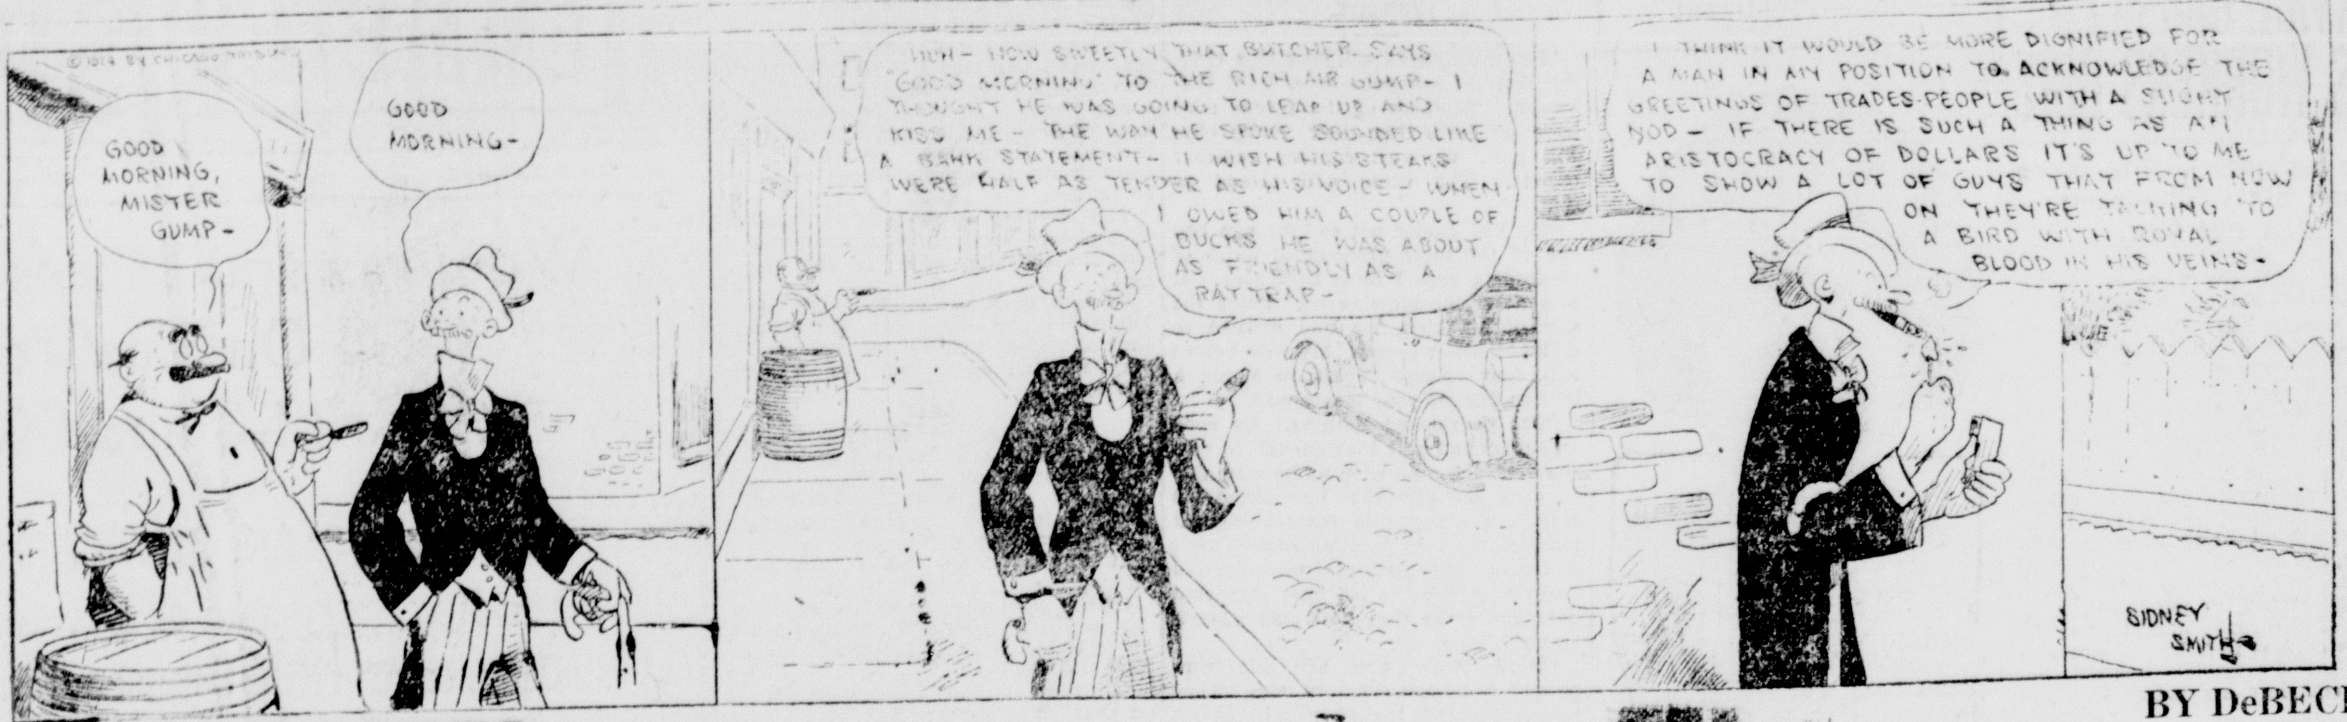

The Russian and Greek churches for centuries followed the Julian calendar, which caused them to celebrate Christmas from 10 to 13 days after the rest of the Christian churches.

Near Plunkville.

"What has become of that bad curve just outside of Plunkville?" "The town did away with it." "A good idea." "Yes, it was cheaper to do that than to build a hospital."

OUR READERS

No Medal Given
Editor The News:

Allow me, dear editor, a small space in your paper to give our ex-safety director, Walter Hiddleston, a volley of praise for the great success he has had with his officers, yes, and he received no praise or no medal of the as he was deserving of. Yes, a good sport trying to get even with a few knucklers as he termed them.

But how about the rest of them? To late now Wilbur, and the fact that you and your officers knew were running wild on the same night on the same street and never closed.

More power to Mayor Jerry Schaeffer for appointing a chief of police who will use them all like as he has done before, J. R. Zimmerman.

Why does money have grooved edges?

Because thieves used to pare off the precious metal from gold and silver coins and sell it. Grooved or "milled" edges prevent this criminal practice. It's a mighty good practice to take.

BRINGING UP FATHER

COUNTY SCHOOL BOARD ORGANIZES

The annual meeting of the Columbiana county board of education was held in the offices of the board in Lisbon Saturday and the new board reorganized.

Officers elected are: President, Perry A. Dickey; Rogers, vice president; W. H. VanFossan; Lisbon; secretary, County Superintendent of Schools, H. V. Leonard.

Prof. D. W. Pearce of the Extension department of Kent Normal college will organize an extension class for the teachers of Leetonia and that vicinity, commencing today, the meeting being called for 7 p. m. The class will continue 11 weeks and the teachers will receive two term hour credits.

Announcement of the intent to organize such a class was made at the annual meeting of the county board.

ASPIRIN

Beware of Imitations!

When you see the "Bayer Cross" on packages or on tablets you are not getting the genuine Bayer Aspirin. It is a cheap imitation, and is not safe. It is not prescribed by physicians over twenty-three years for:

Colds, Headache, Toothache, Lumbago, Nausea, Rheumatism, Neuralgia, Pain, Fever.

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets, cost 17 cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacturing of Monoacetic-acetic acid of Salicylic acid.

Mexico's New Import Law.

According to a new law in Mexico, all goods will be regarded as imported, if on account of the nature of their packages, marks or labels they appear to be of foreign origin, although they may actually have been made in a Mexican workshop. In order to enforce this regulation persons who have goods of this nature in their possession and are unable to prove the payment of import duties will be dealt with as smugglers.

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

LOW DAM ON RIVER'S BOTTOM

One Was Constructed Across the Miami to Catch Drifting Sand and Gravel.

An interesting example of turning waste into profit has been recorded by a writer in Concrete who tells how a dam was constructed across the Miami river as a barrier to prevent gravel from drifting down into the improved channel through the city of Hamilton, O. To overcome the expensive operation of removing the sand and gravel carried down by the river and hence prevent the formation of troublesome bars, a low concrete dam was built across the bottom of the stream.

In commenting on the project, the writer states:

"As long as rivers continue to flow they will carry along with them silt and gravel, especially at times of high water. The heavy gravels and sands, which are most troublesome of all the materials carried along by the water, travel on the bottom of the stream. A depression in the bed, plus a slight check in the velocity of the stream will cause the materials to drop into the depression and stay there until the pit is filled. This dam will check the velocity of the Miami, and the basin above will form the pit in which the gravel and sand will drop. A sand and gravel plant will excavate the deposited material, screen it, and sell it for building material, and thus put a bad habit of the Miami river to beneficial use."

How Did Your Heater Work

CITY BRIEFS

City Hospital Notes.
Mrs. Edward Garwood of Lisbon,
has been admitted to Salem City
hospital for observation.
William Hinchelliffe, of Youngs-
town, underwent an operation Mon-
day morning at the hospital.
Howard Ewing, of Sebring, was
operated on Monday morning at the
hospital.
Two patients left the hospital Mon-
day, Ardy Wagner, of Lisbon, and
Mrs. Adrian McDonald, Salem R. F.
D.

Meeting Postponed
The meeting to organize a Christian
Endeavor society at the First Friends
church, announced for Monday even-
ing, has been postponed until Sunday
evening.

Hasn't Sold His Lot
Thomas Buta says he has not sold
his lot, as was reported in real es-
tate transfers on file in the court at
Lisbon.

**Over Thousand Seek
Admittance To The
Convict University**

Washington, Jan. 21.—More than
1000 applications have already been
received for admittance to the "con-
vict university" which is soon to be
established under the direction of the
Prisoners' Relief society. It was an-
nounced here today.

The purpose of the school is to
teach ex-convicts a trade or profession
and assist them to "go straight."

Bankers Will Head Experts Committee

Pars, Jan. 21.—Reginald McKenna,
famous British banker and former
chancellor of the British exchequer,
today was elected president of the sec-
ond experts' committee, appointed by
the reparations commission to locate
German capital in foreign countries
had to find means for its return.
In accepting the presidency McKenna
warmly praised the principles enun-
ciated by Charles G. Dawes, of
Chicago, president of the first com-
mittee.

SPECIAL MEETING

CIRCULATION MANAGER.

Insects Have Compound Eyes.
All insects have a pair of compound
eyes, although simple eyes may be
present also. The compound eyes
project on each side of the head as
convex, immovable structures. There
is only one pair, although each eye
may be partially divided. The com-
pound eye consists of a great many
similar parts—each a complete organ
of vision, but requiring the surround-
ing elements to form the whole image.
Each of the many elements of the
eye makes a small image, so that the
whole is a mosaic of separate con-
tributions, which combine in a unified
visual impression conveyed to the
brain. Flies have several thousands
of these eyes.

Force of Habit.
A friend calling on De Soaque
asked for a glass of water.
As the guest drank it the host
stood eyeing him with a speculative
gleam.
The guest, somewhat embarrassed,
asked the reason for his behavior.
De Soaque apologized immediately.
"Force of habit," he explained. "I
was waiting to see if it was going to
kill you."—Pittsburgh Chronicle-Tele-
graph.

Dodging the Question.
"Exactly how old are you any-
way?" a friend once asked Lillian
Russell.
"I have a friend," replied the act-
ress with apparent irrelevance, "who
was born in mid-ocean on a steamer.
After she and her mother had landed,
the steamer, on its return trip blew
up. So practically she has no birth-
place." Then, after a pause: "My
age is like that."

Charge.
The chairman of the gas company
was making a popular address.
"Think of the good the gas com-
pany has done," he cried. "If I were
permitted a pun I should say in the
words of the immortal poet, 'Honor
the light brigade.'"
At this point a consumer jumped
up with a shout: "Oh, what a charge
they made!"—Collegian Reporter.

TODAY'S BIG NEWS

Now
12¢

That favorite pocket tin of fresh Tuxedo tobacco which has cost you fifteen cents or more for the last five years, is yours for just twelve (12) cents from now on!

Just two things have made it possible for us to give you this 20% reduction on Tuxedo:

1. A reduction in the cost of Kentucky Burley tobacco and in package materials, as well.
2. The consolidation of three of our big plants into one. (Mr. Ford may not be in the tobacco business but he is right about consolidation.)

This gives us a chance to pass an advantage along to all our friends; to share a good thing.

We haven't lost any time in taking advantage of this opportunity.

You know that it is the desire and policy of The American Tobacco Co. to extend to its customers the maximum of service.

Reducing the price of a great favorite like Tuxedo—the moment it's possible—is our idea of delivering this service.

So now you're getting the familiar tin of Tuxedo tobacco at 12 cents instead of 15 cents.

Tuxedo is always FRESH. Every package is—

Guaranteed by
The American Tobacco Co.

MATTHEWS, HOUSER ADDRESS MEETING OF FRUIT GROWERS

Re-elect Salem Man County
President; Fooster
Expert Speaks.

Lisbon, Jan. 21.—"This is God's country and I'm mighty glad to be back in eastern Ohio," declared W. H. Matthews of Salem, president of the Columbiana County Horticultural society, as he closed an interesting address during the annual meeting of the society held in the offices of the Columbiana County Farm Bureau Saturday afternoon.

Mr. Matthews told apple and fruit growers of his trip through the south-western and western fruit country, and declared that in Calhoun county Illinois, 300,000 barrels of apples were harvested last year, and that the growers expected to increase this volume to 1,000,000 barrels within a few years. This individual county, Mr. Matthews explained, was bounded on two sides by the Mississippi and Illinois rivers, and that the moisture from these two streams is of vast benefit to the county.

Mr. Matthews also explained that there was not a railroad in Calhoun county and that all shipping was done by boat to those river points where barrels of apples are reshipped by rail. "There are thousands of acres in Missouri on the decline and very few new trees are being put out," Mr. Matthews declared. "There are some mighty fine orchards in the southwest, and a lot of the stock is shipped to St. Louis market by boat, some of the smaller craft handling as many as 2,000 barrels per trip. In some parts of Illinois as many as 3,000 acres of orchard have been lost on account of scale, fungus growth and insects."

"In a 4,000-mile trip Ohio shows in better care of farms. The trees in Ohio seem to be healthier and they live longer. A larger yield is obtained from Ohio orchards than from other states, and the state as a whole is nearest the largest market in the world."

J. S. Houser, from the Ohio State Experiment station, Wooster, explained to the horticulturists the value of oil as a spraying material.

The annual election of officers was a rather novel event, there being no nominations. Slips of papers were passed around, and it was explained that the man receiving the highest number of votes would be declared elected as president, and the next lowest would be the new vice president. This resulted in Mr. Matthews of Salem being re-elected, and Price Cope, also of Salem, and who received one vote for president was elected vice president.

L. J. Kirk of Columbiana was elected Secretary-treasurer.

CHURCHES

METHODIST EPISCOPAL

Circles 1, 2 and 5 will hold an all day meeting Wednesday at the church. Quitting will be the order of the day. The husbands and children will join in the covered dish dinner at 12 o'clock. All women are asked to bring sandwiches also with covered dish.

Circle No. 6 will meet with Mrs. Anna Barekoff on Broadway, Wednesday at 2:30. Mesdames Gallagher, Slater and Snyder will be the associate hostesses.

Circle No. 4 will meet with Mrs. A. J. Hill on Highland ave. Wednesday at 2:30.

Circle No. 3 will meet with Mrs. W. W. Tolerton, 19 East High st. Wednesday all day. Quitting will be the program. A covered dish dinner will be served at noon. Business session at 2:30. Hostesses, Mesdames Duncan, Weekley, Hanna and Bryan. "The Master's Sincerity" will be the topic discussed Wednesday evening at 7:15 by the pastor. All interested in the coming special meetings are asked to come and profit by these preparatory Bible readings on the master's life. The study classes will meet following the devotional study.

Thursday evening at 8 o'clock the Fenwick Newell Concert Company will appear as the fourth number on our lyceum course. They come well recommended and the concert promises to be up to the standard of the other numbers.

FIRST FRIENDS

The young people of the First Friends church will meet at 7:30 p. m. Monday at the church to organize a Christian Endeavor society. Officers will be elected.

Sunday evening a devotional service was held with Miss Thea Long in charge.

The Elizabeth Fry circle will hold a business meeting Tuesday evening at the church.

Wednesday evening following the mid-week prayer service the monthly business meeting of the church will be held. At the devotional period the pastor, Rev. E. Haworth will conduct a study on the fourth chapter of the book of Ephesians. These studies have been interesting helpful and inspiring.

Thursday evening the ministers, elders and overseers will meet for the regular preparatory meeting preceding Damascus Quarterly meeting, to be held in February at Alliance.

SUMATRA RUBBER FUTURE IS BRIGHT

Continued from First page
rads, fiv swaters and ice caps and many other things of a sundry or specialty nature. All these things, and more are made right here in Salem at the Sumatra Rubber company.

Its Main Product
The main business of the plant is in hot water bottles, fountain syringes and a new product, patented, and only made by the Sumatra plant, it being sponge rubber bath room rug, washable, and guaranteed for several years. Included in this sponge rubber business is a sponge rubber cushion for office chairs, and as much business is done in the cushions as several other products combined.

Desk pads of rubber, ink well stands, complete desk sets, with the cushion, are products that are used in every office. They wear many years and are inexpensive. Great possibilities are seen by the company in this line of business, which is yet in its infancy. The cushion, also, is made only by the Sumatra company, and it is patented. A rosy future seems to stare the company in the face.

Other articles are horsehoes for indoor use. The shoes of good size are made in various colors and sold to jobbers and manufacturers who make them into sets for Christmas trade. Last year the Sumatra made 250,000 shoes, and this year the shoe orders call for 300,000 rubber shoes to be made from April to Christmas.

Other Specialties
A certain foot accessory company has its rubber bunion pads made here in Salem. Thousands are turned out. Rubber wheels, very hard and serviceable, are made for use on safes, big movable cabinets, and other things in a home, office or plant. The company does a lot of fine rubber inlay work, especially in rubber rugs, and is the original designer of the work.

"Kantkar" fly swatters of rubber, the ones hard rubber handled screw drivers that are insulated and many other articles are being made. A big business is done in douche syringes.

In making a douche syringe, a very interesting process, four pieces of rubber are vulcanized together by heat, a spoonful of water is inserted and then the piece placed in a mold. Intense heat is applied and the water inside the syringe becomes steam and forces the rubber out in

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 30c.

the mold and makes it the finished shape.

A hot water bottle consists at first of a strip of rubber placed on the top, and another on the bottom of a mold and hydraulic pressure of 150 tons is applied and the hot water bottle is a reality. He writer was invited to jump and stand on a rubber bottle filled with air, and it was impossible to make a hole in the rubber.

At present the business is mainly through jobbers and other manufacturers. No scrap rubber is sold, being used again in the cheaper products. The finished products are sold to a small extent at present by the Sumatra's own salesmen and plans call for expansion along that line.

Started in Late 1922

The company was started in Nov. 15, 1922, having been purchased from an Akron attorney, P. H. Hachtel, who was making a certain product. M. S. Lower is the president and he is a rubber man of over 20 years experience. He supervises the work from the floor and he knows all the work thoroughly.

The other officers are H. S. Baughman, vice president who also supervises and helps with the manufacturing, and W. H. McCarty, the secretary and treasurer. All are rubber men with many years' experience.

Since the plant was started the Sumatra has done a large amount of business in comparison to the capital. For the year ending Nov. 15, 1923, the business was \$40,000. The peak was in November, 1923. Much larger business will be done this year.

At present the company is going full tilt on day work, while at times a shift at night is used. About 20 men are employed all the time, with more being added from time to time.

A Salem man, A. W. Stoner, is a director. F. H. Hachtel, Akron, is also a director. The three officers are directors, and formerly lived in Ashland and Akron. Mr. Lower was connected many years with the Faultless Rubber Co. in Ashland.

"We look for a good future," Mr. Lower states. "Our business is increasing and in our inlay sponge sponge rug, and the sponge cushion we have a wanted article that has wonderful possibilities. We are satisfied the way things have been going and we like Salem very much."

We are glad to be a member of the Salem industrial group which includes so many diversified industries.

COLDS

"Pape's Cold Compound" Breaks a Cold Right Up

Take two tablets every three hours until three doses are taken. The first dose always gives relief. The second and third doses completely break up the cold. Pleasant and safe to take. Contains no quinine or opiates. Millions use "Pape's Cold Compound." Price, thirty-five cents. Druggists guarantee it.

THEATRES

"His Children's Children"

The Paramount picture, "His Children's Children," a picturization of the famous novel by Arthur Train, will be the feature at the State theater to night to remain for three days.

The story is a sensational American melodrama, featuring Bebe Daniels, Dorothy Mackaill, James Rennie and George Fawcett. It is the life story of three generations of a prominent New York family and has been produced in an unusually gripping and vivid manner. It is a tremendous Sam Wood production.

Included among others in the strong supporting cast are Mary Eaton of the Ziegfeld Follies, Mahlon Hamilton, Lawrence D'Orsay, Warner Oland, Hale Hamilton and John Davidson. There are many scenes of strong dramatic interest.

Ottawa, Ontario, is threatened with a strike of laundry workers, who declare they are receiving "starvation" wages.

The Day of the Knight is here!

238% Sales Increase!

One thing sure—it takes a wonderful motor car to make the brilliant record Willys-Knight made in 1923.

People are turning to the Knight for its beautiful coachwork, its luxurious comfort, its distinction, its great strength—but mainly and mostly for the many incomparable benefits of the wonderful Willys-Knight sleeve-valve engine. The engine that grows quieter, smoother and more powerful in use!

WILLYS-KNIGHT

THE NEWS RADIO QUESTION BOX

Answers furnished by John Meyer, radio builder, of Woodland ave.

Q.—My set is one of the three circuit, two variometers and a variocoupler kind. I can receive between 300 and 400 meters. How can I increase wave length and distance of this set? Could I use a variable grid leak and condensers. Should I use transformers of different ratio? Would radio frequency amplification aid in getting long distance. A. R.

A. To increase the wave length of this set, you will have to load all three circuits. This may be done either by winding more wire on primary of the variocoupler, and on the plate and grid variometers, or by shunting across each of these a small

fixed condenser of about .0025 capacity. Variable grid condenser and variable grid leak might add slightly to the efficiency of the set. I would not advise transformers of different ratio. Prefer both of low ratio. While a high ratio in the first step gives louder signals, it is a sacrifice of quality in reception. Two or more steps of radio frequency amplification will aid in bringing in long distance, but if this added, I would use a different tuner, one that did not employ regeneration.

Q.—Which would be the best ground for me to use, one a pipe driven in the ground six feet and using a six foot ground wire, or a ground wire 25 feet long grounded to a water pipe? A. B.

A.—The ground which has the most surface actually in contact with the earth makes the best ground. Would much rather use the 25 foot ground wire attached to the water pipe.

In Chile, where the telegraph lines

are owned by the government, nearly all the operators are women, and a large proportion of the clerks in the postoffice are women.
